

Dog API

Provides:

This API provides random pictures of dogs, and you can even choose which breed.

Key Provisioning:

- No key required

Pain factor (*0=eazpz...5=nightmare*): 

Quotas:

- None
-

The Good:

- Easy to use
- Gives concise examples on how to use
- Allows you to submit a dog picture
- Code snippet examples
- Cute!
- JSON format is very simple
- With a little bit of parsing, you can grab the breed of the random dog

The Bad:

- ...

The Ugly:

- You can submit a dog picture but you can't let your app do it
